### The Six-Step AusFeds Community Pact

#### Pact One

Every month I pledge to hold a town hall public meeting in my electorate with an open agenda, where the people can come and listen to how I have been representing them and ask any questions of me they want.

#### Pact Two

Every month I pledge to personally run a democracy training session for constituents to attend to learn about the Australian political system and how each person can participate.

#### Pact Three

I pledge to vote independently of my political party if the party policy is not in alignment with the needs and expectations of the people I represent.

#### Pact Four

I pledge never to participate in rushed legislation that has not been considered by qualified members of my electorate other than legislation that is in the direct interest of immediate national security of our nation.

#### Pact Five

I pledge to ensure that every new proposed bill and amended legislation will be first put to a People's Legislative Review Group in my electorate and the feedback will be provided to the Australian Parliament.

#### Pact Six

I pledge to use technology to hear the voice of the people and not against the people.

## DO YOU EVER WONDER?

What would life be like if the government put **PEOPLE** first?

*If it listened to YOU instead of CEO's & corporate lobbyists?*

*If the people you elect kept their promises; and they faced you every month instead of only once every three years?*

*If they respected & protected your Constitutional Rights; and voted for YOU instead of "the party"?*

*If they served the interests of People, their families, jobs and businesses first; and believed Freedom is Your Right, not a privilege?*

*If they made sure big business paid their tax and stayed out of politics; plus put local production and manufacturing first to build a self reliant nation?*

**Does that sound like a better kind of Australia to YOU?**
